Re: 2016 Ontario Association of Medical Radiation Sciences Annual General Conference

Dear Kevin:

On behalf of the Ontario Association of Medical Radiation Sciences (OAMRS), I would like to personally thank you for supporting the 2016 Annual General Conference (AGC).

The AGC is an opportunity for the Medical Radiation Sciences community to come together to share education, ideas and showcase advancements in the profession. The 2016 OAMRS AGC in Burlington, Ontario will be a success and that will not have been possible without your generous support. We hope you are equally satisfied with the outcome.

Your support helps provide Medical Radiation practitioners the opportunity to further their skills and knowledge that will ultimately benefit all who call on their medical expertise and services.

Once again, thank you for sponsoring our event!

Sincerely,

A handwritten signature in black ink, appearing to read 'Greg Toffner', is positioned above the printed name.
