

When safety & success must be Absolutely Assured

STORAGE CONTAINERS

Custom-Designed, Lead-Lined

MarShield manufactures a comprehensive line of custom designed Lead-Lined Storage Containers designed to your exact requirements. MarShield has worked seamlessly with end users including hospitals, laboratories, medical facilities, and Nuclear plants ensuring that a final design is functional and fits within its surroundings and radiation code requirements. We design and manufacture both standard and custom one-off designs. We employ a fully qualified design team to help with every step of the process, from the moment your order is entered until it arrives at your doorstep.

FEATURES & BENEFITS

- Manufactured from A36 or 44W carbon steel
- Lead filled or lined only with 99.94% pure Lead – ASTM B-29
- All Lead is fully encapsulated with no exposure
- All hardware from heavy-duty hinges, to locks are of the highest quality
- All Storage Containers are ground smooth from sharp corners or edges
- Extreme care is taken in the surface preparation to all surfaces for the supply and application of a finish coat of paint to the desired colour
- All Storage Containers are available with your choice in lead shielding from 1/32" to 2" thick or more
- All Storage Containers come equipped with a hinged lockable lid or removable lids
- Optional stainless steel is available in lieu of carbon steel
- Our Storage Containers combine effective radiation protection and durability in a rugged, attractive and versatile line
