

# MarShield Radiation Shielding Solutions

Trusted protection for Nuclear Energy & Medical Radiation applications.

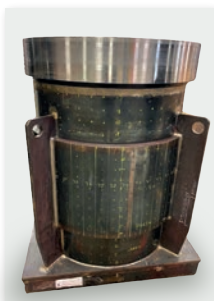

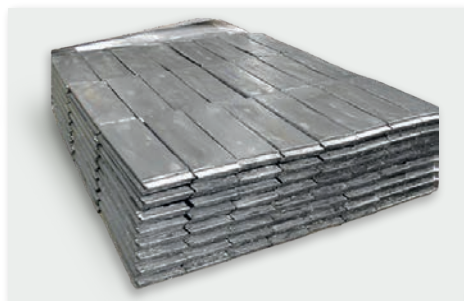

**MarShield**<sup>™</sup>  
CUSTOM RADIATION SHIELDING PRODUCTS

## Nuclear Energy Radiation Shielding

### Shielding Solutions for High-Risk, High-Integrity Environments

With over 45 years of experience, MarShield is a trusted partner to major utilities, engineering firms, and research labs globally.

We support both established nuclear facilities and emerging technologies, including SMRs and advanced reactor designs. Our shielding systems are designed and manufactured for critical environments like nuclear power plants and waste management facilities—where protection, performance, and long-term reliability are essential.

### What Sets Us Apart:

- ✓ Precision-engineered solutions for complex radiation profiles
- ✓ Full regulatory support and audit-ready documentation
- ✓ Approved Nuclear Pour Procedure
- ✓ Shield Integrity testing (Non destructive)
- ✓ Tier 1 Nuclear Supplier

## Medical Radiation Shielding

### Protecting People, Equipment & Compliance in Healthcare

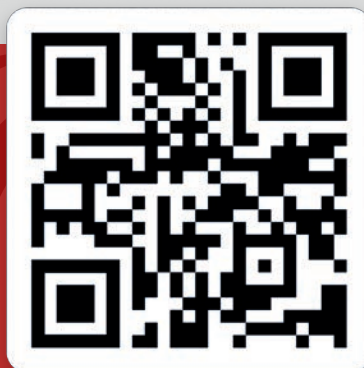

MarShield delivers shielding systems for hospitals, clinics, radiopharmaceuticals and imaging centers - from hot labs to PET/CT and beyond, always tailored to safety, layout, and licensing needs. With over 45 years of experience, we provide comprehensive solutions that ensure the highest standards of protection and compliance.

### Why Medical Professionals Choose MarShield:

- ✓ Customized shielding for any modality or facility design
- ✓ Mobile and stationary options for hot cells, barriers & more
- ✓ Compliance with NRC, CNSC, and local regulations
- ✓ Lead-lined cabinetry, shielded pass-throughs, and more
- ✓ Built to last and highest quality standards, healthcare industry trusted partner
